2020 - 2023	BSc (CA & IT) DCIT-HNGU, PATAN	CGPA : 8.13
2019 - 2020	H.S.C. Board ASHISH VIDHALAYA,PATAN	Percentage : 77.00

PROJECTS

Academic

EVENT MANAGEMENT SYSTEM

- A web application for simplifying Event Management.
- Features include : User authentication, Dynamic online Registration forms, Dynamic events booking forms, Services booking, Real-time payment gateway, Generates PDF receipts, Family tee in profile section, Upcoming event reminder.
- Admins benefit from centralized dashboards, Application management tools and ensuring a streamlined and Secure event booking process.

Personal

NOTES APPLICATION

- Developed a web-based notes application that allows users to create, edit, and delete personal notes. The app features a user-friendly interface and provides functionality like filter notes, search notes, dark mode and user profile for organizing notes efficiently

CHAT APPLICATION

- Developed a real-time web-based chat application that allows users to send and receive messages instantly. The app supports individual conversations, providing a dynamic and interactive user experience.
- Implemented WebSocket-based real-time communication.

NEWS APPLICATION

- Developed a news web application that fetches and displays news articles from various sources using a public API. The app features a clean and intuitive interface for browsing and reading news.
